BDI Event
AI, cyber security round table discussion

OE-BDI / DOSZ-MTO / DOSZ
community event

📅 **Date: March 27, 2026, 17:30–21:00**   📍 **Venue:** OE Bánki, József körút 6., Room J200

🚀 Attention Students! (+1 GRADE OPPORTUNITY)

Want to make your end-of-semester evaluation a bit easier? Here is your chance! We are hosting a **Student Demo Zone** as a side event to our professional roundtable discussion.

The Offer: Any student who brings and presents their own project, device, or demo related to **AI or Cybersecurity** will receive **+1 grade point** toward their final semester evaluation:

- **What can you bring?** Anything related to cybersecurity, AI, networking, or ethical hacking: a custom-built hardware tool, an interesting software solution, or a pentest lab demonstration.
- **What we provide:** We will provide a desk, power supply, and a monitor if needed. You only need to bring your own equipment (laptop, target device, etc.).
- **Why is it worth it?** Besides the extra grade point, you can showcase your skills in front of experts from the Ministry of Energy, SZTAKI, and the Chamber of Engineers. This is an excellent opportunity to secure a future internship or find a thesis supervisor!

📋 Event Schedule:

- **17:30 – 18:00:** Registration and opening of the Guest Demos (Student Zone) – this is your time to shine!
- **18:15 – 19:30:** Expert Roundtable – AI in Industrial Cybersecurity (Featuring: Viktor Remeli - Ministry of Energy, SZTAKI, EURO ONE, DOSZ).
- **19:30 onwards:** Networking, buffet, and further informal demonstrations.

📍 Registration and Information:

Due to space requirements for the demos, registration is **MANDATORY**: 👉 **[Registration Link: https://forms.gle/3MTHcnXFM5uepUcEA]**
